presents

Winship Melanoma & Cutaneous Oncology Symposium

SATURDAY, MARCH 2, 2024

Emory Conference Center and Hotel
1615 Clifton Road
Atlanta, GA 30329

**EMORY
WINSHIP
CANCER
INSTITUTE**

National Cancer Institute-Designated
Comprehensive Cancer Center

COURSE DESCRIPTION

The management of melanoma has undergone a rapid and massive shift in the past decade. Improvements in diagnosis, classification, and treatment have contributed to improving outcomes in patients. However, the rapid improvement also places great strain on clinicians who must remain updated with the latest data supporting new diagnostic and therapeutic methods.

This meeting will serve as a valuable forum for the presentation and discussion of newly available data. Participants will be provided with an update on practice-changing data in a practical and interactive format, fostering discussion and impacting clinical outcomes for patients with melanoma and non-melanoma skin cancer.

CONTINUING EDUCATION CREDIT

The Emory University School of Medicine designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Emory University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

NURSING CREDIT 6.50

Nursing Professional Development Center (ENPDC) is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. Attendees to this activity will be awarded contact hours by ENPDC upon completion of the activity evaluation and by participating in 90% of the activity time.

TARGET AUDIENCE

This activity is specifically designed to meet the needs of dermatologists, medical, surgical, and radiation oncologists, hematologists, residents, fellows, advanced practice providers, nurses, and pharmacists.

LEARNING OBJECTIVES

After successful completion of this educational activity, participants should be able to:

- Identify recent advances and current status of neoadjuvant and adjuvant treatment of melanoma
- Discuss recent advances in surgical management of the nodal basin in melanoma
- Describe pathologic evaluation of pigmented lesions and regional lymph nodes, including evaluation of nodes after neoadjuvant treatment
- Discuss new insights into melanoma and detection and prevention
- Discuss current approaches to management of non-melanoma skin cancers
- Describe approaches to treatment of anti-PD-1 refractory melanoma
- Describe recent approaches to multidisciplinary management of Merkel cell carcinoma

SAVE THE DATE! March 2, 2024

REGISTRATION

The registration fee includes course material, continental breakfast, breaks, lunch, and other amenities involved in rewarding learning experience. A refund of your registration fee will be made if written cancellation is received no later than **February 18, 2024, less \$50 administrative fee.
